## Name of Local Agency

1. The De Smet School District 38-2 is known as the Local Agency (LA).

#### **Procurement Plan**

- 1. The De Smet School District plan for procuring items for use in the Child Nutrition Program is as follows. The procurement plan provides for free and open competition, transparency in transactions, comparability, and documentation of all procurement activities.
- 2. The Local Agency follows the federal and state procurement rules. If the amount of food purchases is more than the Federal small purchase threshold currently valued at \$250,000, OR if the amount of nonperishable goods and services is more than the State of South Dakota small purchase threshold currently valued at \$50,000, formal procurement procedures will be used as required by federal Procurement Standards 2 CFR 200 and South Dakota Codified Law (SDCL) 5-18A-14 and SDCL 5-18A-22(12). Informal procurement procedures (small purchase price quotes) will be required for purchases under the most restrictive small purchase threshold.

# List the most restrictive dollar amount for each of the following non-profit food service purchase:

Purchased Item	List the Most Restrictive Dollar Amount
Perishable/Food	\$250,000
Nonperishable Goods and Services	\$50,000
Other (please describe)	

3. Buy American: By participating in the federal school meal programs, Local Agencies are required to purchase domestic commodities and products for school meals to the maximum extent practicable. This requirement applies only to the school meal programs and not to the Child and Adult Care Food Program or the Summer Food Service Program. Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

While rare, two (2) exceptions may exist when:

- a. the product is not produced or manufactured in the US in sufficient, reasonable and available quantities of a satisfactory quality; and
- b. competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product.

ALL products that are normally purchased by Distributor as non-domestic and proposed as part of this solicitation must be identified with the country of origin. Distributor shall outline their procedures to notify the school or agency when products are purchased as non-domestic.

Any substitution of a non-domestic product for a domestic product (which was originally a part of the solicitation), must be approved, in writing, by the Food Service Director, prior to the delivery of the product to the school or agency. Any non-domestic product delivered to the school or agency, without the prior, written approval of the Food Service Director, will be rejected.

The Distributor must affirm their willingness to assert their best and reasonable efforts to ensure compliance with this federal rule.

**4.** The following procedures will be used for all other purchases:

- **5.** Good faith effort will be made to include the following affirmative steps:
  - a. Place qualified small and minority businesses and women's business enterprises on solicitation list.
  - b. Soliciting small and minority businesses and women's business enterprises whenever they are a potential source.

•	Formal bid procedures will be applied on the basis of a:
	□ Centralized System (entire School Food Authority)
	☐ Individual School (one school building within a School Food Authority)
	☐ Multi-School Systems (different School Food Authorities working together)
	☐ State Contract (e.g., computers from the BOA, Office of Procurement Mgt contracts)
	☐ Combination of above (specify):

**7.** Because of the potential for purchasing more than \$250,000 of food or \$25,000 of goods and services, it will be the responsibility of the Food Service Manager to document the amounts to be purchased so the correct method of procurement will be followed.

## **Emergency or "Pressing Need" Purchases**

- 1. If it is necessary to make a one-time emergency procurement to continue service or obtain goods, the purchase shall be made, and a log of all such purchases shall be maintained by the Food Service Manager. The following emergency procedures shall be followed. All emergency procurements shall be approved by the Food Service Manager. At a minimum, the following emergency procurement procedures shall be documented:
  - item name
  - dollar amount
  - vendor, and
  - reason for emergency
- 2. If it is necessary, in the course of a pressing need, to make an emergency purchase by means of "piggybacking" on the bid of another district, the following conditions must exist and approved procedures must be followed and appropriately documented as follows:
  - The LA originating the competitive procurement must have a "piggyback provision" in the original solicitation;
  - Documentation of the emergency requiring the piggybacking must be maintained;

- Approval from the purchasing LA's governing board will be obtained and documented;
- Approval from the LA that originated the competitive procurement will be obtained and documented;
- Approval from the Vendor that was awarded the Contract (original solicitation)
   will be obtained and documented;
- If required, a public notice of the district's "Intent to Waive Competitive Bidding"
  will be issued at least 10 days prior to the regularly scheduled governing board
  meeting;
- Approval to piggyback will be obtained and documented from the governing board during a regularly scheduled meeting following the public notice;
- Notification to the Vendor of final approval will be documented and issued;
- A contract with the Vendor will be developed including:
  - i. The contractor shall agree to retain all books, records and other documents relative to the contract agreement for three (3) years after final payment, or until audited by LA, whichever is sooner. The LA, its authorized agents, and/or State and/or USDA auditors shall have full access to and the right to examine any of said materials during said period.

## Micro-purchases

- 1. According to the 2 CFR 200.67, micro-purchases can be utilized to minimize the administrative burden and cost of completing an informal or formal procurement process for very small purchases. Micro-purchases make it possible to make purchases in emergency situations to continue uninterrupted service. No informal quotes are required in micro-purchasing. Please keep in mind that with all procurement, the use of federal taxpayer dollars requires you to use funds to maximize free and open competition. Micro-purchases are not exempt from this requirement.
- **2.** Micro-Purchases may be used when the following conditions are met:
  - One aggregate transaction does not exceed \$10,000
  - Purchases are equitably distributed among qualified suppliers; your LA should not use one single supplier for all micro-purchases
  - Prices are reasonable
- **3.** Micro-purchasing MAY NOT be used instead of required procurement methods. Understanding the correct usage of Micro-purchases is critical to ensure that an SFA is not circumventing the proper procurement process.
- **4.** Things to remember when using micro-purchasing are:
  - The LA must distribute micro-purchases between multiple suppliers to "share the wealth" as long as the price is considered reasonable.

- The items being purchased should be examined to see if purchasing them in a different manner could result in a better price. Micro-purchasing may not be used when another procurement method may achieve a more economical approach.
- For example, you cannot purchase your weekly food supplies from one vendor all year long, as long as each of the weekly invoices do not exceed the micro-purchase threshold of \$10,000. Using this example, the LA must use an informal or formal procurement method to evaluate the best vendor. Micro-purchasing is meant to be used for smaller purchases that cannot otherwise be estimated for long term use over the school or fiscal year.
- **5.** The following procedures will be used for routine micro-purchases:

### Micro-Purchase Procedures Table

Vendor	Good or Service	Reasoning	Duration/Frequency
Maxwell Foods	Smallwares, Small Kitchen Equipment	Local source not available. This website has reasonable prices and low/free shipping cost.	As needed, rotate with Amazon.com
Amazon.com	Smallwares, Small Kitchen Equipment	Local source not available. This website has reasonable prices and low/free shipping cost.	As needed
Maynards Food Center	Food Supplies, Nonperishable Items	Local Business	As needed
Trustworthy Hardware	Cleaning Chemicals, Kitchen Maintenance Items	Local Business	As needed

#### **6.** Examples could be:

- The cooler went out overnight and some of your product is not safe to serve. An emergency trip to the local market is needed to purchase enough supplies to complete a menu until your vendor can restock your supply.
- Your vendor was unable to fulfill the quantity of a product you needed for the week, you are short but can obtain this product at a local business to fulfill what you need for the day/week.
- Spices and other low-cost items used often but not purchased frequently in great quantity are items that work well using the micro-purchase method.
- Small farm to school or Fresh Fruit and Vegetable purchases can be appropriate for micro-purchases.

### **Small Purchase Procedures**

(also known as Quotes or the Informal Procurement Method)

- **A.** If the amount of purchases for items are less than the district's small purchase threshold (perishable purchases below \$250,000 and/or purchases below \$50,000 for services or supplies), the following small purchase procedures, including quotes, will be used. Quotes from an adequate number of qualified sources will be required.
  - 1. Written Specifications will be prepared and provided to the vendor.
  - **2.** Each vendor will be contacted and given an opportunity to provide a price quote on the same specifications. A minimum of two vendors shall be contacted.
  - **3.** The Food Service Manager will be responsible for contacting potential vendors when price quotes are needed.
  - **4.** The following procedures will be used for routine small (informal) purchases:

- **12.** All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.
- **B.** If items are available <u>only</u> from a single source when the award of a contract is not feasible under small purchase, sealed bid or competitive negotiation, NON-COMPETITIVE NEGOTIATION procedures will be used:

- 1. Request for sole source purchasing will be made to the State Agency, Child and Adult Nutrition Services.
- 2. Written Specifications will be prepared and provided to the vendor.
- **3.** The Food Service Manager will be responsible for the documentation of records to fully explain the decision to use the non-competitive negotiation. The records will be available for audit and review.
- **4.** The Food Service Manager will be responsible for documentation that the actual product or service specified was received.
- **5.** The Food Service Manager will be responsible for reviewing the procedures to be certain all requirements for using single source or non-competitive negotiation are met.
  - Non-competitive negotiations shall be used for one-time purchases of a new food item to determine food acceptance by students and for samples for testing purposes. A record of non-competitive negotiation purchase shall be maintained by the Food Service Manager. The record of non-competitive purchases shall include, at a minimum, the following:
    - item name
    - dollar amount
    - vendor, and
    - reason for non-competitive procurement

A member or representative of the local Board of Education or Governing Board will approve, in advance, all procurements that result from non-competitive negotiations.
